

ROCKDALE MEDICAL CENTER – Conyers, Georgia

WOMEN'S TESTING CENTER\MRI ADDITION

SCOPE Addition of 2,500 sq. ft. MRI Examination Suite. Renovation of existing 4,000 sq. ft. Outpatient Facility to provide new Mammography Room, Ultra-Sound Rooms, Respiratory Therapy Room and an expanded Lobby.

Owner
Rockdale Hospital

Mechanical Contractor
Batchelor & Kimball

Prime Consultant
Tippett Clepper Architects

Construction Cost
\$646,000 (mechanical)

SPECIAL CIRCUMSTANCES

- Phasing of the project to maintain operation of the outpatient diagnostic services during the construction period.
- Critical design construction schedule.
- New multi-zone air handling unit system.
- Improved ventilation of the existing Lobby
- Diversion of existing airflow to better serve the renovated spaces.
- Diverse room temperature and humidification requirements for the small, individual spaces within the MRI Suite.
- Process fluid chiller for MRI equipment.
- Automated connections to house chilled water and domestic water systems as back-cooling for the MRI Equipment.
